SUBJECT INDEX, VOLUME 82

ACTH, effect of, on pyruvate and acetate metabolism 995
feedback control of, 397
release of, hypotension-evoked, 704
urinary estrogen secretion in monkey after, 876
Actinomycin D, effect of, on uterine alkaline phosphatase, 1069
inhibition of estrogen effect by, 786
T_3 and TRF studies, 303
ADH, bioassay of, 218
Adipose tissue, hormonal effects on, 253
Adrenal, mechanism of protection of, 1217
metabolism of, useful adrenal cell suspension for study of, 1053
Adrenal glands, ascorbic acid in rat, 436
20α-hydroxysteroid dehydrogenase and reductive pathways in, 527
Adrenalectomy, effects of, on circadian rhythm of corticotropin, 1117
Adrenocorticotropin, feedback regulation of secretion of, 655
Age, influence of, on androgenization, 1001
Albumin, penetration of, into thyroid gland, 1103
Aldosterone, localization of receptor sites for, in toad bladder, 1163
secretion of, pharmacologic effects of angiotensin-II-amide on, 29
Allograft, endocrine function of pancreatic, 731
Amino acids, labeled, effects of androgens on incorporation of, into proteins, 603
AMP, synthesis of, and thyroid hormones, 905
3′,5′-cyclic, inhibition of adrenal progesterone biosynthesis by, 620
Androgenization, exposure time for, 1010
neonatal age and, 1001
protection against, 1005
Androgens, effects of, on incorporation of labeled amino acids into proteins, 603
mitochondrial lipid and, 535
plasma, in several species, 115
Angiotensin effects in the rat, 29
Anions, thyroxine displacement by, 47
Anti-estrogen effects on estrous cycle, 959
Antithyroid effect of thiamine, 895
Ascorbic acid in rat adrenal glands, 436
Autoxidation of corticosteroids, 318

Bladder, localization of receptor sites for aldosterone in, 1163
Blinding effect on pineal glands, 1245
Blood, progestin levels in rat ovarian, 333
Bone, fetal rat, responses to thyrocalcitonin of, 149
Brain, autoradiography of ^{3}H-estradiol in, 1149

Calcium, plasma, thyrocalcitonin secretion at levels of, 132
Carcinogenesis, neonatal hormones and, 685
Catecholamine, adrenal, as response to insulin-provoked hypoglycemia, 1065
Cartilage, insulin effects on, 493
Chlordane, stimulation of liver T_4 uptake by, 406
Cholesterol in pregnancy, 157
Cholesterol sulfate, biosynthesis of, by rabbit testis slices, 291
Choline, tissue, in hormone deficiency, 693
Clomiphene, effect of, on uptake of estradiol, 1049
on uterus and vagina, 69
CN-55,945-27 effects on uterus and vagina, 69
Copulation, reflex release of gonadotropin and increased plasma testosterone concentration during, 627
Corpora lutea, bovine, *in vitro* progesterone synthesis by, 232
hypophysectomy and, 753
Corticoids, hypothalamic feedback of, 655
Corticosteroidogenesis, rat adrenal, effects of hypophysectomy on, 21
Corticosteroids, stability of, in aqueous solutions, 318
Corticosterone, effect of magnesium deficiency on, 954
in nervous system of the cat, 1058
secretion of, pharmacologic effects of angiotensin-II-amide on, 29
Corticotropin, circadian rhythm of, 1117
Cortisol, effect of, on amino acid incorporation, 277
on lymphoid tissue DNA, 767
feminine pattern of metabolism of, in male rats castrated at birth, 480
and glucose metabolism, 447
hydroxylation of, effect of phenobarbital on, 547
Cortisone, effects of, on renal sodium excretion, 1200
Cycloheximide effects on interaction of TRF and T_3, 75
Cyproterone acetate, action of, on a mammalian target organ, 868
effects of, on canine prostatic hyperplasia, 311

Darkness, continuous, effect on pineal glands, 1245
Deamino-oxytocin, inactivation of, by rat uterine homogenates, 475
Dehydrogenase, 20α-hydroxysteroid, and reductive pathways in mouse adrenal glands, 527
Diabetes, alloxan, effect of insulin on glycogen synthesis in, 1
Diestrus, prolonged, HCG, ovulation and, 1142
timing of hormone secretion at, 831
DIHPPA in thyroid glands, 1156
DNA, cortisol effects on lymphoid tissue, 767
hormone-induced synthesis of, by mammary gland, 540
metabolism of thymus, liver extract and, 777
in muscles, effect of GH on, 882

Endocrinology of interstitial gland, 799
Endometrium, glucose uptake by, 511
Enzymes, oxidative, in adrenal tumors, 989
Estradiol, in brain, autoradiography of, 1149
effect of clomiphene on uptake of, 1049
and pituitary excretion, 1035

SUBJECT INDEX, VOLUME 82

ACTH, effect of, on pyruvate and acetate metabolism 995
feedback control of, 397
release of, hypotension-evoked, 704
urinary estrogen secretion in monkey after, 876
Actinomycin D, effect of, on uterine alkaline phosphatase, 1069
inhibition of estrogen effect by, 786
T_3 and TRF studies, 303
ADH, bioassay of, 218
Adipose tissue, hormonal effects on, 253
Adrenal, mechanism of protection of, 1217
metabolism of, useful adrenal cell suspension for study of, 1053
Adrenal glands, ascorbic acid in rat, 436
20α-hydroxysteroid dehydrogenase and reductive pathways in, 527
Adrenalectomy, effects of, on circadian rhythm of corticotropin, 1117
Adrenocorticotropin, feedback regulation of secretion of, 655
Age, influence of, on androgenization, 1001
Albumin, penetration of, into thyroid gland, 1103
Aldosterone, localization of receptor sites for, in toad bladder, 1163
secretion of, pharmacologic effects of angiotensin-II-amide on, 29
Allograft, endocrine function of pancreatic, 731
Amino acids, labeled, effects of androgens on incorporation of, into proteins, 603
AMP, synthesis of, and thyroid hormones, 905
3′,5′-cyclic, inhibition of adrenal progesterone biosynthesis by, 620
Androgenization, exposure time for, 1010
neonatal age and, 1001
protection against, 1005
Androgens, effects of, on incorporation of labeled amino acids into proteins, 603
mitochondrial lipid and, 535
plasma, in several species, 115
Angiotensin effects in the rat, 29
Anions, thyroxine displacement by, 47
Anti-estrogen effects on estrous cycle, 959
Antithyroid effect of thiamine, 895
Ascorbic acid in rat adrenal glands, 436
Autoxidation of corticosteroids, 318

Bladder, localization of receptor sites for aldosterone in, 1163
Blinding effect on pineal glands, 1245
Blood, progestin levels in rat ovarian, 333
Bone, fetal rat, responses to thyrocalcitonin of, 149
Brain, autoradiography of ^{3}H-estradiol in, 1149

Calcium, plasma, thyrocalcitonin secretion at levels of, 132
Carcinogenesis, neonatal hormones and, 685
Catecholamine, adrenal, as response to insulin-provoked hypoglycemia, 1065
Cartilage, insulin effects on, 493
Chlordane, stimulation of liver T_4 uptake by, 406
Cholesterol in pregnancy, 157
Cholesterol sulfate, biosynthesis of, by rabbit testis slices, 291
Choline, tissue, in hormone deficiency, 693
Clomiphene, effect of, on uptake of estradiol, 1049
on uterus and vagina, 69
CN-55,945-27 effects on uterus and vagina, 69
Copulation, reflex release of gonadotropin and increased plasma testosterone concentration during, 627
Corpora lutea, bovine, *in vitro* progesterone synthesis by, 232
hypophysectomy and, 753
Corticoids, hypothalamic feedback of, 655
Corticosteroidogenesis, rat adrenal, effects of hypophysectomy on, 21
Corticosteroids, stability of, in aqueous solutions, 318
Corticosterone, effect of magnesium deficiency on, 954
in nervous system of the cat, 1058
secretion of, pharmacologic effects of angiotensin-II-amide on, 29
Corticotropin, circadian rhythm of, 1117
Cortisol, effect of, on amino acid incorporation, 277
on lymphoid tissue DNA, 767
feminine pattern of metabolism of, in male rats castrated at birth, 480
and glucose metabolism, 447
hydroxylation of, effect of phenobarbital on, 547
Cortisone, effects of, on renal sodium excretion, 1200
Cycloheximide effects on interaction of TRF and T_3, 75
Cyproterone acetate, action of, on a mammalian target organ, 868
effects of, on canine prostatic hyperplasia, 311

Darkness, continuous, effect on pineal glands, 1245
Deamino-oxytocin, inactivation of, by rat uterine homogenates, 475
Dehydrogenase, 20α-hydroxysteroid, and reductive pathways in mouse adrenal glands, 527
Diabetes, alloxan, effect of insulin on glycogen synthesis in, 1
Diestrus, prolonged, HCG, ovulation and, 1142
timing of hormone secretion at, 831
DIHPPA in thyroid glands, 1156
DNA, cortisol effects on lymphoid tissue, 767
hormone-induced synthesis of, by mammary gland, 540
metabolism of thymus, liver extract and, 777
in muscles, effect of GH on, 882

Endocrinology of interstitial gland, 799
Endometrium, glucose uptake by, 511
Enzymes, oxidative, in adrenal tumors, 989
Estradiol, in brain, autoradiography of, 1149
effect of clomiphene on uptake of, 1049
and pituitary excretion, 1035

Estradiol benzoate, gonadotrophins in male rats treated neonatally with, 983
Estrogen, antagonist of, effects of injection on estrous cycle, 959
hypothalamus and puberty, 100
inhibition of effect of, by actinomycin D, 786
local, vaginal glycogen and, 62
metabolism of, in the dog, 500
rat ovarian synthesis of, 1021
stimulation of female sex behavior by, 193
Estrous cycle, progesterone secretion during luteal phase of, 203
Estrus, constant, continual light and, 699
Ethanol, bioassay of ADH under, 218
Ethionine and thyroid, 1223
Ethylenediaminetetraacetate, protection of phosphorylase activity by, 795

Fat cells, GH action on, 825
Food, effect of restriction of, on thyroxine secretion in male rats, 353
FSH, comparison of LH with, 109
hypothalamic polyamines depleting, 742
ovine, effect on lactic acid production, 420
pituitary content of, in female rats, 1241
stimulation of protein biosynthesis in testis by, 597
FSH-RF, inhibitors of, 674
localization of, 664
plasma, in rats, 939

Gastrin, protein synthesis in stimulation of acid secretion by, 416
GH, action of, on fat cells, 825
clonal strains of rat pituitary secreting, 342
depletion of pituitary concentration of, as result of suckling, 617
effect of, on DNA content of muscles, 882
effect of porcine GH-releasing factor on, 271
levels of, in the pig, 369
after VMN lesions, 1125
primate, prolactin activity of, 1247
theophylline, lipolysis and, 1027
Gland(s), interstitial, endocrinology of, 799
parathyroid, actions of vitamin D independent of, 760
pineal, hydroxyindole-O-methyl transferase activity in, 1245
submaxillary, synthesis of 5α-pregnan-3,20-dione by, 630
Glucagon, stimulation of 5-nucleotidase activity by, 173
Glucocorticoid(s), antipyretic action of, 195
feedback control of ACTH secretion by, 397
α-2-GP parameter of activity of, 1085
immunoassay for anti-inflammatory activity of, 1093
Glucose, metabolism of, cortisol and, 447
by testicular tissue, 183
variations in adipose tissue, 1133
stimulation of protein biosynthesis in testis by, 597
uptake of, by endometrium, 511
Glycogen, in cerebral cortical slices, 1
vaginal, local estrogen and, 62
Glycoprotein synthesis and steroids, 1077, 1085, 1093
Goiter, fecal loss of T_4 and, 327
Gonadotrophin(s), in estradiol-treated male rats, 983
excretion of urinary chorionic, in monkey, 874
human menopausal, effect on lactic acid production, 420
reflex release of, during copulation, 627
GRF, *in vitro* effect of, 271

HCG, ovulation and prolonged diestrus, 1142
Heat, effects of, on thyroxine secretion in male rats, 353
Histamine, ovarian, 171
Histones, effect on uterine alkaline phosphatase, 1069
Homogenates, rat uterine, inactivation of oxytocin by, 475
Hormone(s), ^{131}I-labeled, effect of stimulation of vagus nerve on thyroidal release of, 7
neonatal, and carcinogenesis, 685
ovine β-lipotropic, biological properties of, 898
pituitary, luteotrophic properties of, 818
pituitary tumor, suppression of pituitary gland hormone content by, 889
secretion of, timing at diestrus of, 831
thyroid, AMP synthesis and, 905
IMP-dehydrogenase and, 912
tissue choline in deficiency of, 693
HPG, effect of tannation of, 187
Hypercalcemia, effect of, on thyrocalcitonin content, 83
Hyperglucagonemia induced by neutral red, 1042
Hyperplasia, canine prostatic, effects of cyproterone acetate on, 311
Hypertrophy, compensatory, inhibition of, 871
Hypocalcemia, effect of, on thyrocalcitonin content, 83
Hypoglycemia, insulin-provoked, adrenal catecholamine response of infant rat to, 1065
Hypophysectomy, and corpora lutea, 753
effects of, on cryptorchid rats, 241
on lipid composition of rat testes, 137
on rat adrenal corticosteroidogenesis, 21
FSH-releasing factor after, 939
influence of, on luteal function, 410
LH secretion and disappearance rates after, 359
^{3}H-norepinephrine in rat heart following, 175
1 *vs.* 2 ovaries in, 591
Hypotension, ACTH release evoked by, 704
Hypothalamus, critical exposure time for androgenization of, 1010
estrogen and puberty, 100
localization of FSH-RF in, 664
prolactin-releasing activity of, 611
Hypothyroidism, metabolism of adipose tissue in rats with, 860

^{131}I-L-T_3, binding coefficient of, relationship to cell nutrition, 569
IMP-dehydrogenase and thyroid hormones, 912
Insulin, adipose tissue sensitivity to, 1133
effects of, on cartilage, 493

Insulin, effects of, on glycogen synthesis in cerebral cortical slices, 1
levels of, in the pig, 369
after VMN lesions, 1125
suppression of, and beta cell function, 296
Interstitium, ovarian, effect of prolactin on, 122
Iodide, effects of, on thyroid stimulation, 1170
excess, and thyroid secretion, 54
Iodopeptides from thyroglobulin, 925
Isografts, intraocular ovarian, response to LH of, 245
Isoproterenol, inhibition of thyrocalcitonin action by, 468

Kidney, T_4 interchange in plasma and, 37

Lactation, early, mammary gland metabolism during, 1209
Lactogen, placental, induction of milk protein synthesis by, 575
Lesions, ventromedial hypothalamic, GH and insulin levels after, 1125
LH, bovine, active immunization with, 1190
comparison of FSH with, 109
medium K^+ and Ca^{++} and *in vitro* release of, 225
pineal gland, melatonin and, 919
response of intraocular ovarian isografts to, 245
secretion of, and disappearance rates, 359
urinary, immunologic studies of, 945
Light, continual, and constant estrus, 699
effect on circadian rhythm of corticotropin, 1117
FSH-releasing factor after hypophysectomy and, 939
Lipolysis, GH, theophylline and, 1027
Liver, extract of, and thymus DNA metabolism, 777
hormonal effects on, 253
T_4 interchange between plasma and, 37
Luteal function, surgical trauma and, 410
Lymph, dog, thyroglobulin in, 1047

Magnesium deficiency on corticosterone, 954
Melatonin, pineal gland, LH and, 919
Membrana granulosa of ovarian follicle, morphology of, 638
MER-25, effects of, on uterus and vagina, 69
Metabolism, of mammary glands, 1209
role of, in TSH release, 1183
Milk, ejection of, effect of number of pups on, 623
reflex, oxytocin effect on, 179
Mitochondria, prostate, androgen effects on amino acid incorporation into proteins by, 603

Nervous system, corticosterone and cortisol in, 1058
Neurohypophysis, localization of FSH-RF in, 664
Nicotinamide effect on pyridine nucleotides in thyroid gland, 209
Norepinephrine, effects of, on metabolic rates of heat-acclimated hamsters, 17
^{3}H-norepinephrine in rat heart after hypophysectomy, 175
5-Nucleotidase activity, stimulation of, by glucagon, 173
Nucleotides, pyridine, in thyroid gland, 209

Osteoporosis, experimental, and parathyroid activity, 384
Ovarian grafts, ovo-implantation induction by, 1179
Ovaries, histamine in, 171
1 *vs.* 2, influence on ovulation and ovarian weight in hypophysectomized rat, 591
Ovulation, HCG, prolonged diestrus and, 1142
and progesterone in the monkey, 143
timing of, 1227
Oxidase, monoamine, in thyroid gland, 1098
Oxytocin, effect of, on milk-ejection reflex, 179
inactivation of, by rat uterine homogenates, 475

Pancreas, beta cells of, insulin replacement and, 296
Parathyroid, activity of, experimental osteoporosis and, 384
Parathyroid hormone, improved assay of, 166
Perchlorate, effects of, on plasma protein-thyroid hormone interaction, 47
Phenobarbital, effect of, on initial rates of cortisol hydroxylation, 547
stimulation of liver T_4 uptake by, 406
Phosphatases, plasma, hydrolysis of steroid phosphates by, 1062
Phosphatidic acid, thyroidal, 969
Phosphorylase, uterine, 786, 795
Photoperiodicity, synchronizing effect on ovulation, 1227
PIF, purification of, 1236
Pincus, Gregory Goodwin, in memoriam, 651
Pineal, critical time in "priming," 1249
Pineal gland, melatonin and LH, 919
Pituitaries, acute effects of steroids on, 721
Pituitary gland, suppression of, 889
Placenta, hormonal activity of rat, 266
Plasma, systemic, concentration of androgens in, 115
Plasma-tissue interchange of T_4, 37
PNMT, inducibility of, species differences in, 584
Polyamines, FSH-depleting hypothalamic, 742
Pregnancy, progestational potency during, 844
progestin and cholesterol in, 157
5α-Pregnan-3,20-dione, synthesis of, by submaxillary glands, 630
Progesterone, adrenal, inhibition of biosynthesis of, 620
catabolism of, in rat ovary, 844
and ovulation in the monkey, 143
secretion of, *in vivo* rate during luteal phase of estrous cycle, 203
in vitro synthesis of, 232
Progestin, determination of, 837
levels of, in rat ovarian blood, 333
in pregnancy, 157
Prolactin, concentration of pituitary, effect of number of pups on, 623
effect of, on ovarian interstitium, 122
effects of hypothalamic implant of, 878
pituitary, changes in levels of, from weaning to adulthood, 555
placental, induction of milk protein synthesis by, 575
release of, by the hypothalamus, 611

Protein(s), biosynthesis of, in rat testis, 597
dietary, hormonal activity of rat placenta in absence of, 266
effect of inhibitors of synthesis of, on FSH-RF, 674
effects of androgens on incorporation of labeled amino acids into, 603
liver, synthesis of, during centrifugation stress, 429
milk, synthesis of, by placental lactogen and prolactin, 575
synthesis of, in stimulation of gastrin secretion of acid, 416
Pseudopregnancy, induction of, by vaginal tampon, 423
Puberty, hypothalamus and estrogen, 100
lesioning and light in, 865
of rat liver, 480
Puromycin effects on interaction of TRF and T_3, 75

Radioiodine, excess iodide action on release of, 54
RNA, interstitial cell, 1063
metabolism of, effect of testosterone on, 463
in immature and adult rats, 453

Steroid(s), acute effects of, on pituitaries, 721
biosynthesis of, by clonal line of rat testicular interstitial cells, 614
effect of, on pyruvate and acetate metabolism, 995
Steroidogenesis, site of trophic stimulation of, 559
Stress, centrifugation, liver protein synthesis during, 429
Suckling, depletion of GH as a result of, 617

T_3, interaction with TRF, effects of puromycin and cycloheximide on, 75
TRF and actinomycin D studies, 303
T_4, fecal loss of, and goiter, 327
liver, stimulation of uptake of, 406
metabolism of, in pregnant rat, 282
Tampon, vaginal, induction of pseudopregnancy by, 423
Testis(es), elements of, differential atrophy of, 241
guinea pig, preparation of fraction of, enriched in steroid C-17α hydroxylase, 633
rat, lipid composition of, 137
protein biosynthesis in, 597
slices of rabbit, biosynthesis of cholesterol sulfate by, 291
Testosterone, control of mitochondrial biosynthesis by, 535
effect of, on RNA metabolism, 463
plasma, increased concentration of, during copulation, 627
Theophylline, GH, lipolysis and, 1027
inhibition of thyrocalcitonin action by, 468
Thiamine, antithyroid effect of, 895
Thiocyanate, effects of, on plasma protein-thyroid hormone interaction, 47
Thymus, effect of cortisol on amino acid incorporation by fractions of, 277
Thyrocalcitonin, drug antagonism to, 468
in hyper- and hypocalcemia, 83
mode of action of, 377
responses of bone to, 149
secretion of, at normal and subnormal plasma calcium levels, 132
strain differences in, 1015
Thyroglobulin, biosynthesis of, 805
in dog lymph, 1047
iodopeptides from 925
Thyroid, function of, ethionine and, 1223
in pregnant rat, 282
secretion of, excess iodide and, 54
state of, effect on myocardial contractility, 191
stimulation of, effects of iodide on, 1170
Thyroid gland(s), albumin penetration into, 1103
biosynthesis of thyroglobulin in, 805
DIHPPA in, 1156
monoamine oxidase in, 1098
pyridine nucleotides in, 209
Thyroxine, displacement of, by anions, 47
effects of, on metabolic rates of heat-acclimated hamsters, 17
metabolism of, in the dog, 976
rapid interchange of, between plasma and liver and plasma and kidney, 37
role of, in feedback control of pituitary-thyroid axis, 91
secretion of, in male rats, 353
Tissue(s), adipose, metabolism of, 860
interstitial cells in culture of, 614
RNA metabolism in, 453
Trauma, α-2-GP synthesis and, 1077
surgical, and luteal function, 410
TRF, interaction with T_3, effects of puromycin and cycloheximide on, 75
ovine, ineffectiveness of, in tadpoles, 1067
T_3 and actinomycin D studies, 303
Triiodothyronine, role of, in feedback control of pituitary-thyroid axis, 91
L-Tryptophan effect on pyridine nucleotides in thyroid gland, 209
TSH, release of, role of metabolism in, 1183
secretion of, effects of estradiol on, 1035
Tumor(s), adrenal, oxidative enzymes in, 989
hormone-secreting pituitary, effects on liver and adipose tissue, 253
rat pituitary, clonal strains of cells of, secreting GH, 342

Uterus, antiestrogens in, 69

Vagina, antiestrogens in, 69
Vagus nerve, effect of stimulation of, on thyroidal release of ^{131}I-labeled hormones, 7
Vitamin D, actions of, independent of parathyroid glands, 760

ENDOCRINOLOGY

VOLUME 82

JANUARY-JUNE, 1968

CONTENTS OF VOLUME 82

No. 1, January 1968

PRASANNAN, K. G., AND K. SUBRAHMANYAM: Effect of Insulin on the Synthesis of Glycogen in Cerebral Cortical Slices of Alloxan Diabetic Rats 1

ISHII, J., K. SHIZUME, AND S. OKINAKA: Effect of Stimulation of the Vagus Nerve on the Thyroidal Release of ^{131}I-Labeled Hormones 7

CASSUTO, Y., AND Y. AMIT: Thyroxine and Norepinephrine Effects on the Metabolic Rates of Heat-Acclimated Hamsters 17

SHIMA, S., M. MATSUBA, AND G. PINCUS: Effects of Hypophysectomy on Rat Adrenal Corticosteroidogenesis *in Vivo* 21

DUFAU, M. L., AND B. KLIMAN: Pharmacologic Effects of Angiotensin-II-amide on Aldosterone and Corticosterone Secretion by the Intact Anesthetized Rat 29

HASEN, J., G. BERNSTEIN, E. VOLPERT, AND J. H. OPPENHEIMER: Analysis of the Rapid Interchange of Thyroxine Between Plasma and Liver and Plasma and Kidney in the Intact Rat 37

YAMADA, T., AND A. E. JONES: Effect of Thiocyanate, Perchlorate and Other Anions on Plasma Protein-Thyroid Hormone Interaction *in Vitro* 47

YAMADA, T., AND A. E. LEWIS: Studies on the Mechanism of the Inhibitory Action of Excess Iodide on the Release of Radioiodine from the Rat Thyroid Gland 54

WRENN, T. R., J. BITMAN, AND J. R. WOOD: Influence of Local Estrogen Administration on Vaginal Glycogen 62

WOOD, J. R., T. R. WRENN, AND J. BITMAN: Estrogenic and Antiestrogenic Effects of Clomiphene, MER-25 and CN-55,945-27 on the Rat Uterus and Vagina 69

BOWERS, C. Y., K. L. LEE, AND A. V. SCHALLY: A Study on the Interaction of the Thyrotropin-Releasing Factor and L-Triiodothyronine: Effects of Puromycin and Cycloheximide 75

GITTES, R. F., S. U. TOVERUD, AND C. W. COOPER: Effects of Hypercalcemia and Hypocalcemia on the Thyrocalcitonin Content of Rat Thyroid Glands 83

ACTH, effects on adrenal growth, 956
ether and pentobarbital, 1247
exogenous, effect on lemming adrenal steroidogenesis, 1387
Koritz-Hall hypothesis for regulation of steroidogenesis by, 390
rat sensitivity to, 1108
release of, glucocorticoid inhibition of, 1232
Actinomycin D, effects on thyroid stimulation, 1132
inhibition of ovulation by, 177
Adenosine triphosphate and testicular protein biosynthesis, 86
ADH and CSF, 246
Adrenal cortex, thyrocalcitonin and, 470
Adrenalectomy, effect of, on liver lipids, 607
failure of, to alter response to estrogen, 1366
Adrenal gland(s), AY-9944 and steroidogenesis of, 555
bovine, steroid Δ-isomerase of, 864, 873
enucleate, functions of, 927
regulation of growth of, 956
trypsin action on response of, 61
Amino acid, binding to LH of, 1293
hormone effect on transport of, 1185
Amino-glutethimide, ability of heterotopic pituitaries to secrete ACTH and TSH in response to, 442
inhibition of adrenal cortical secretion by, 56
Androgen, dissociation of effects on sexual morphology and behavior, 395
neonatal, and steroid metabolism, 791
synthesis of, cryptorchidism on, 1074
Androstenediol in testosterone synthesis, 992
Angiotensin, effects in the rat, 180
rat sensitivity to, 1108
Antidiuretic hormone, diuretic activity of, 199
Avidin biosynthesis, progesterone induction of, 11
AY-9944 and adrenal steroidogenesis, 555

Blood, pituitary, failure of cervical sympathectomy to alter flow of, 603
Bone matrix, effect of GH on lipids of, 51
Brain, modification of progesterone translocation into, 1353
Butyl 4-hydroxy-3,5-diiodobenzoate, metabolism of, 239

Calcitonin studies in turtles, 1145
See also Thyrocalcitonin
Calcium, effect of thyrocalcitonin on, 379
excretion and concentration of, in adult rats 1375
homeostasis in thyroidectomized sheep, 183
kidney cell, effect of PTH on, 1316
proportional control of parathyroid hormone secretion by, 1043
Cholesterol, DHA inhibition of synthesis of, 1311
Chorionic gonadotropin, human, interruption of pregnancy by, 217
CNS, estrogen, puberty and, 1101
Collagen, effect of estrogen on biosynthesis of, 678
Contraceptives, oral, and phenobarbital, 149
Copulation, aspects of, preventing atrophy in reproductive system, 633
Corpora lutea, control in pseudopregnant rabbits, 291
follicular activity in maintenance of, 314
function of, follicle regulation of, 509
maintenance of, in hypophysectomized rabbits, 354
Corticosterone, plasma, maternal mediation of levels of, 900
Corticotrophin, time course for release of, from ectopic pituitary grafts, 1377
See also ACTH
Cortisol, augmentation of effects of testosterone propionate by, 387
binding with transcortin, 999
interaction with GH in enzyme regulation, 475
Cortisone, inhibition of nuclear RNA polymerase of human neoplasm by, 371
Cryptorchidism on androgen synthesis, 1074
CSF and ADH, 246
Cycloheximide, effects on thyroid stimulation, 1132
Cyproterone acetate and steroid metabolism, 945

21-Dehydrocortisol, binding of, with transcortin, 999
Dehydroepiandrosterone, inhibition of cholesterol synthesis by, 1311
Deiodination, thyroidal iodotyrosine, inhibition of, 336
Dexamethasone, effect of, on liver lipids, 607
Diabetes insipidus, sensitivity to antidiuretic hormone in, 1380
Dinitrophenol and thyroid, 938
Dinitrotyrosine and thyroid secretion, 405
Diuresis of antidiuretic hormone, 199
DNA, effect of GH and HPL on, 645
influence of pregnancy, fetuses, placentas and pseudopregnancy on, 907
Dwarf mouse, cellular growth in, 544

Enzyme, regulation of, hormone interaction in, 475
Epinephrine, adrenal, in rats with transplantable pituitary tumor, 1357
effect on amino acid transport, 1185
Estradiol, displacement from uterus of, 585
effect of, on phosphorus excretion, 516
on seminal vesicle and ventral prostate of castrates, 1140
metabolism of, by rabbit, 113
17β-, antisera to, 565
^{3}H-, in uterus, 777
Estrogen(s), CNS, puberty and, 1101
and collagen biosynthesis, 678
effects on non-atrophic uterus, 422
failure of adrenalectomy to alter response to, 1366
and histamine, in implantation, 933
inactivation of biological effects of, by antibodies to 17β-estradiol, 565
and LH, luteolytic action of, 129
Δ^7-Estrogen formation *in vitro*, 984
Estrus, effect of photoperiod on, 1355
FSH changes during, 433
intrauterine pO_2 during, 701
limbic system changes during, 207
Ether, pentobarbital and ACTH, 1247

Exophthalmos, immune, due to harderian gland antigen, 903

Fat cell, influence of K^+ on metabolism of, 548
Fatty acids, free, GH effect on mobilization of, during fasting, 1162
short-chain, effect on plasma insulin, 118
Fluoride effect on thyroid metabolism, 157
Follicles, role of, in regulation of corpus luteum function, 509
FSH, changes during estrous cycle, 433
fluctuations in ovulating rats, 97
in urine of castrate female monkeys, 609
FSH-RF, removal of activity of, by testosterone propionate or reserpine, 1349

GH, and bone matrix lipids, 51
bovine, effect on serine dehydratase, 381
effect of, on DNA, 645
on fasting FFA mobilization, 1162
immunofluorescent localization of, 1362
interaction with cortisol in enzyme regulation, 475
and lipolysis, 300
neurohumoral control of release of, 893
pituitary cells producing after hypothalamic extract, 1278
and plasmin, 1029
radioimmunoassay in MtW15 tumor, 714
release of, hypothalamic extracts and, 783
releasing activity in monkeys, 25
synthesis of, prolactin and, 799
and tyrosine transaminase, 924
Glucagon, effects on amino acid transport, 1185
and hepatic gluconeogenesis, 1337
Glucocorticoids, inhibition of ACTH release from pituitary by, 1232
Gluconeogenesis, hepatic, glucagon and, 1337
Gonadotrophin(s), effects on ovary, 1083
and pregnancy in hypophysectomized rat, 1052
and the rat testis, 855
See also Chorionic gonadotropin
Graves' disease, exophthalmos in, 903
Growth, cellular, in dwarf mouse, 544

Hashimoto's struma, dog thyroiditis and, 501
HCG, interruption of pregnancy by, 217
Histamine and estrogen in implantation, 933
Homografts, pancreatic, in nondiabetic hamster, 33
HPL-HCG, synergism of, in maintenance of pseudopregnancy, 530
15α-Hydroxyandrostenedione, aromatization of, 348
20α-Hydroxypregn-4-en-3-one during parturition, 1181
Hydroxyproline, urinary, effect of thyrocalcitonin on, 379
Hypertension, adrenal, steroid synthesis in, 141
renal, and Na balance, 1199
Hypertrophy, muscular, role of insulin in, 1071
Hypophysectomy, and mucopolysaccharides, 861
Hypothalamus, activity of crude extracts of, in hypophysectomized rats, 234
concentration of norephinephrine in, in relation to estrous cycle, 1383
extract of, pituitary GH cells and, 1278
parotid gland endocrine axis under control of, 807
sensitivity to antidiuretic hormone in diabetic rats after lesions of, 1380
Hypothyroidism, effect of thyroid hormones on thyroid weight in, 41
and riboflavin deficiency, 461

Imidazole, hypocalcemic effect of, 521
Implantation, histamine and estrogen in, 933
Implants, median eminence, effect on luteal function of, 1273
Indoles, effects of, on inhibition of ovulation in the rabbit, 599
Infection, tyrosine transaminase during, 965
Insulin, chicken, 1323, 1331
degradation and metabolic effect, 1166
dynamics of secretion of, 572
plasma, effect of short-chain fatty acids on, 118
role in muscular hypertrophy, 1071
secretion of, cholinergic agents on, 651
from isolated islets of rat pancreas, 1155
Interrelationship, luteal-hypophyseal, 323
Iodide, acute effects of, on iodine deficient rat thyroid protein, 816
effects of, on iodine-deficient rats, 279
on recovery from PTU, 452
transport and thyroid iodine, 737
Iodine, deficiency of, thyroid secretion in, 1193
effect of iodide on rats deficient in, 279
thyroid, iodide transport and, 737
Iodine-131, nicotinamide effect on metabolism of, 79
Iodoamino acid, effect of propylthiouracil on synthesis of, 592
Iodotyrosine, effects of, on thyroid slices, 495
Isocitric dehydrogenases, determination of, 596
Islet(s), implants in hereditary obese mouse, 975
in vitro studies on isolated, 1155

K^+ influence on fat cell metabolism, 548
$KClO_4$ *vs.* PTU induced goiters, 620

Lactogen, human placental, effect on DNA, 645
placental, biosynthesis of, 744
LATS, early effects on thyroid, 1210
immunological properties of, 845
theophylline with thyrotropin and, 309
LH, amino acid binding to, 1293
and estrogen, luteolytic action of, 129
immunology of, 414
mechanism of action of, 1092
radioimmunoassay for rat, 1004
release in progesterone-treated rats, 1013
LH-RF, effect of, in hypophysectomized rats, 225
Limbic system, cyclic changes in, 207
Lipids, dietary, iodination of, 897
liver, adrenalectomy and dexamethasone effect on, 607
Lipolysis, GH and, 300
Liver, oxidase activity of, testosterone action on, 1259
Luteinization in male rats, 479

Luteolysis, in the hamster, 129
uterine extract of, 1065

Methylmercaptoimidazole, effect of, on ^{131}I release, 671
Milk, ejection of, effect of spinal cord lesions on, 615
induction of secretion of, by temporal lobe lesions, 618
Mitochondria, ovarian, progesterone synthesis in, 769
rat liver, swelling of, 368
Monkeys, GH releasing activity in, 25
Monoamines and ovulation, 170
MSH activity in pituitary after nembutal and morphines, new bioassay for, 137
Mucopolysaccharides, hypophysectomy and, 861

Neoplasm, human, cortisone inhibition of nuclear RNA polymerase of, 371
Neurohypophyseal hormone, biological significance of amino acid in position 3 of, 979
Neurohypophysis, capacity of, to release vasopressin, 251
Neurophysin, biosynthesis and release of, 1299
Nicotinamide and thyroid ^{131}I metabolism, 79
Norephinephrine, concentration in hypothalamus of, in relation to estrous cycle, 1383
Nuclei, prostatic, effect of testosterone on RNA synthesis of, 629

Obesity, islet implants in, 975
Ovary (-ies), dehydrogenases in rat, 329
gonadotrophin effects on, 1083
progestin biosynthesis of, 1
rat, $^{3}\beta$-HSD activities of, 626
steroid hormones of, measurement of, pO_2 by, 691
Ovulation, inhibition of, by actinomycin D, 177
seasonal variation in, and effects of indoles, 599
and monoamines, 170
possible role of FSH in induction of, 97
Oxygen, intrauterine, during estrous cycle, 701
during progestation, 706
measurement of intrauterine tension of, 691
Oxytocin, analysis of action of, 979
and vaginal stimulation, 272

Pancreas, 5-HT in β cells of endocrine, 917
insulin secretion from isolated islets of, 1155
perfused rat, dynamics of insulin secretion by, 572
Parathyroid gland, magnesium load on, 1285
Parotid gland, endocrine axis under control of hypothalamus, 807
Parturition, 20α-OH-P and, 1181
Pentobarbital, ether and ACTH, 1247
Perchlorate, *vs.* PTU induced goiters, 620
Perphenazine, rat mammary differentiation by, 1217
Pertussis, metabolic effects of, 885
Phenobarbital and oral contraceptives, 149
Phenylethanolamine N-methyl transferase in rats with transplantable pituitary tumor, 1357
Phosphate, pyridoxal, and thyroid, 1253
Phosphorus, excretion of, estradiol effect on, 516
Photoperiod, effect of, on estrous cycle length, 1355
Pineal gland in Japanese quail, 1237
Pituitary gland(s), ectopic grafts of, time course for corticotrophin release from, 1377
GH degrading activity of, and plasmin, 1029
heterotopic, 442
human, dependence of hormonal yield on collection method for, 1370
metabolism of, thyroid hormone and, 754
site of prolactin in, 731
Pituitary hormone, posterior, and metals, 368
PL. *See* HPL-HCG
Plasmin and GH, 1029
PMS, interruption of pregnancy by, 217
stimulation of protein synthesis, 107
PMSG, LH and, 414
Polyribosomes, function of thyroid, 1123
properties of thyroid, 1117
Potassium influence on fat cell metabolism, 548
Pregnancy, gonadotropic requirements for maintenance of, in hypophysectomized rat, 1052
interruption of, 217
maintenance of, in hypophysectomized rabbits, 354
Progestation, intrauterine pO_2 during, 706
Progesterone, exogenous, influence on ovarian activity of, 613
induction of avidin biosynthesis by, 11
LH release in rats treated with, 1013
modification of translocation of, into brain, 1353
synergisms and antagonisms of, 411
synthesis in ovarian mitochondria, 769
Progestin, biosynthesis of, by rat ovary, 1
Prolactin, concentration of, effect of ectopic pituitary glands on, 1359
immunofluorescent localization of, 1362
necessity for, in luteal maintenance, 1273
site in pituitary, 731
synthesis of, 799
Protease, androgen-dependent, 1224
Protein, biosynthesis in the testis, 86
placental, synthesis of, 744
synthesis, adrenal, studies on steroid inhibition of, 18
stimulation by PMS, 107
thyroid, iodine deficient, 816
Pseudopregnancy, gonadotropic induction of, 1173
HPL-HCG synergism in maintenance of, 530
luteolytic factors in, 291
PTH, effect of, on kidney cell calcium, 1316
secretion of, 1043
PTU, effect of, on ^{131}I release, 671
on iodoamino acid synthesis, 592
vs. goiters induced by $KClO_4$, 620
iodide effect on recovery from, 452
Puberty, CNS, estrogen and, 1101
Puromycin, effects on thyroid stimulation, 1132

Reserpine, removal of plasma FSH-RF activity by, 1349
Riboflavin deficiency, hypothyroidism and, 461
Ribosomes, properties of thyroid, 1117
RNA, effect of testosterone on, 629

RNA, influence of pregnancy, fetuses, placentas and pseudopregnancy on, 907
synthesis of APG by, thyroid hormone and, 763

Serine dehydratase, effect of bovine GH on, 381
Serotonin, TSH-induced mobilization of, 263
SME, activity in hypophysectomized rats, 234
gonadotropic activity of extracts of, in hypophysectomized rats, 225
Sodium, balance of, renal hypertension and, 1199
retention after adrenal enucleation, 927
Spinal cord, effect of lesions of, on milk ejection, 615
Steroid, biosynthesis by testicular tumor, 659
metabolism of, cyproterone acetate and, 945
neonatal androgen and, 791
studies on inhibition of adrenal protein synthesis by, 18
synthesis in adrenal hypertension, 141
Steroidogenesis, adrenal, AY-9944 and, 555
Koritz-Hall hypothesis for regulation of, by ACTH, 390
lemming adrenal, effect of exogenous ACTH on, 1387
Sulfatase, hepatic steroid, 485
Sulfonylurea drugs, effects on thyroid, 74
Sympathectomy, cervical, failure of, to alter pituitary blood flow, 603

T_4, analogue (BHDB), metabolism of, 239
antioxidant function of, *in vivo*, 376
deiodination of, by a peroxide system, 1023
metabolism of, 489
Temporal lobe, induction of milk secretion by lesions in, 618
Testis, gonadotrophins and, 855
Testosterone, action on liver oxidase, 1259
androstenediol in synthesis of, 992
effect on RNA, 629
Testosterone propionate, changes in steroid metabolizing enzymes after single injection of, 791
cortisol augmentation of effects of, 387
removal of plasma FSH-RF activity by, 1349
Theophylline with thyrotropin and LATS, 309
Thyrocalcitonin, and adrenal cortex, 470
effect on urinary hydroxyproline and calcium, 379
secretion rate of, 161
See also Calcitonin
Thyroglobulin, freezing alterations in, 833
Thyroid gland, activity of, failure of adrenalectomy to alter, 1366
acute fluctuations of function of, 1268
cells of, action of DBC and TSH on, 877
and dinitrophenol, 938
early effects of TSH and LATS on, 1210
effects of sulfonylurea drugs on, 74
magnesium load on, 1285
metabolism of, effect of fluoride on, 157
pyridoxal phosphate and, 1253
secretion of, DNT and, 405
slices of, iodotyrosine effects on, 495
stimulation of, effects of actinomycin D, cycloheximide and puromycin on, 1132
Thyroid hormone(s) and APG metabolism, 754
changes in secretion of, induced by iodine deficiency, 1193
goitrogenic effects of, 41
and RNA APG synthesis, 763
Thyroiditis, dog, 501
Thyrotropin. *See* TSH
Transaminase, tyrosine, GH and, 924
Transcortin, binding of cortisol and 21-dehydrocortisol with, 999
Trypsin action on adrenal response, 61
Tryptophan oxygenase, lack of inhibition of, 384
TSH, action on thyroid cells, 877
early effects on thyroid, 1210
effect of dinitrophenol on thyroid responses to, 938
human, purification of, 721
and LATS, theophylline with, 309
serotonin mobilization induced by, 263
Tumor, MtW15, radioimmunoassay of GH in, 714
testicular, steroid biosynthesis by, 659
Tyrosine, analogues of, inhibition of iodotyrosine deiodination by, 336
transaminase during infection, 965

Uterus, displacement of estradiol from, 585
^{3}H-estradiol in, 777
influence on ovarian activity, 613
luteolytic extract from, 1065
non-atrophic, estrogen effects on, 422

Vagina, oxytocin and stimulation of, 272
Vasopressin, release of, 251

ENDOCRINOLOGY

VOLUME 83

JULY-DECEMBER, 1968

EDITOR-IN-CHIEF: JACOB ROBBINS

ASSOCIATE EDITORS: ROBERT W. BATES, GERALD D. AURBACH

CONTENTS OF VOLUME 83

No. 1, July 1968

CHATTERTON, R. T., JR., G. J. MACDONALD, AND R. O. GREEP: Biosynthesis of Progesterone and 20α-Hydroxypregn-4-en-3-one by the Rat Ovary During the Estrous Cycle and Early Pregnancy 1

KORENMAN, S. G., AND B. W. O'MALLEY: Progesterone Action: Regulation of Avidin Biosynthesis by Hen Oviduct *in Vivo* and *in Vitro* 11

BURROW, G. N., AND L. B. MORROW: Further Studies on the Steroid Inhibition of Adrenal Protein Synthesis 18

SMITH, G. P., S. H. KATZ, A. W. ROOT, A. P. S. DHARIWAL, A. BONGIOVANNI, W. EBERLEIN, AND S. M. MCCANN: Growth Hormone Releasing Activity in Rhesus Monkeys of Crude Ovine Stalk Median Eminence Extracts 25

MACCHI, I. A., AND S. B. BEASER: Establishment and *in Vitro* Endocrine Function of Neonatal Pancreatic Homografts in Nondiabetic Golden Hamsters 33

ESCOBAR DEL REY, F., G. MORREALE DE ESCOBAR, T. JOLIN, AND C. LOPEZ-QUIJADA: Effects of Small Doses of Thyroid Hormones on Thyroid Weight in Hypothyroid Rats 41

SAKAI, T., T. YOSHINARI, AND R. L. CRUESS: Effect of Growth Hormone Upon the Lipids of Bone Matrix 51

WILROY, R. S., JR., A. M. CAMACHO, R. L. TROUY, AND A. A. HAGEN: Inhibition of Adrenal Cortical Secretion by Amino-glutethimide in Dogs 56

HALKERSTON, I. D. K., M. FEINSTEIN, AND O. HECHTER: Effect of Lytic Enzymes Upon the Responsivity of Rat Adrenals *in Vitro*. I. Effect of Trypsin Upon the Steroidogenic Action of Reduced Triphosphopyridine Nucleotide 61

HERSHMAN, J. M., AND K. KONERDING: Effects of Sulfonylurea Drugs on the Thyroid and Serum Protein Binding of Thyroxine in the Rat 74

BASTOMSKY, C. H., V. ABBASSI, AND J. M. MCKENZIE: Effect of Nicotinamide *in Vivo* on Thyroid Pyridine Nucleotides and Radioiodine Metabolism 79

MEANS, A. R., AND P. F. HALL: Protein Biosynthesis in the Testis: II. Role of Adenosine Triphosphate (ATP) in Stimulation by Glucose 86

GOLDMAN, B. D., AND V. B. MAHESH: Fluctuations in Pituitary FSH During the Ovulatory Cycle in the Rat and a Possible Role of FSH in the Induction of Ovulation 97

VAN DYKE, K., AND P. A. KATZMAN: Effect of Pregnant Mare's Serum (PMS) on RNA Polymerase Activity and Protein Synthesis in Ovaries of Immature Rats 107

WILLIAMS, K. I. H., D. H. HENRY, D. C. COLLINS, AND D. S. LAYNE: Metabolism of 4-^{14}C-17β-^{3}H-estradiol-17α and 16-^{14}C-17α-^{3}H-estradiol-17β by the Rabbit 113

HORINO, M., L. J. MACHLIN, F. HERTELENDY AND D. M. KIPNIS: Effect of Short-Chain Fatty Acids on Plasma Insulin in Ruminant and Nonruminant Species 118

CHOUDARY, J. B., AND G. S. GREENWALD: Comparison of the Luteolytic Action of LH and Estrogen in the Hamster 129

KASTIN, A. J., M. C. MILLER, III, AND A. V. SCHALLY: MSH Activity in the Rat Pituitary After Treatment with Nembutal and Morphine: A New Bioassay for MSH-Release Inhibiting Factor (MIF) 137

DE NICHOLA, A. F., J. T. OLIVER, AND M. K. BIRMINGHAM: Biotransformation of 1,2-^{3}H-11-deoxycorticosterone and 4-^{14}C-progesterone by Rats with Adrenal Regeneration Hypertension 141

LEVIN, W., R. M. WELCH, AND A. H. CONNEY: Decreased Uterotropic Potency of Oral Contraceptives in Rats Pretreated with Phenobarbital 149

PASTAN, I., V. MACCHIA, AND R. KATZEN: Effect of Fluroide on the Metabolic Activity of Thyroid Slices 157

CARE, A. D., C. W. COOPER, T. DUNCAN, AND H. ORIMO: A Study of Thyrocalcitonin Secretion by Direct Measurement of *in Vivo* Secretion Rates in Pigs 161

MEYERSON, B. J., AND C. H. SAWYER: Monoamines and Ovulation in the Rat 170

NOTES AND COMMENTS

BARROS, C., AND C. R. AUSTIN: Inhibition of Ovulation by Systematically Administered Actinomycin D in the Hamster 177

DUFAU, M. L., AND B. KILMAN: Acute Effects of Angiotensin-II-amide on Aldosterone and Corticosterone Secretion by Morphine-Pentobarbital Treated Rats 180

INSKEEP, E. K., AND A. D. KENNY: Calcium Homeostasis in Thyroidectomized Sheep 183

No. 2, August 1968

GRINNELL, E. H., J. L. KRAMÁR, W. M. DUFF, AND T. E. LYDON: Further Studies on the Diuretic Activity of Antidiuretic Hormone 199

TERASAWA, E., AND P. S. TIMIRAS: Electrical Activity During the Estrous Cycle of the Rat: Cyclic Changes in Limbic Structures 207

YANG, W. H., AND M. C. CHANG: Interruption of Pregnancy in the Rat and Hamster by Administration of PMS or HCG 217

STEVENS, K. R., G. L. JACKSON, AND A. V. NALBANDOV: Gonadotropic Activity of Stalk Median Eminence Extracts in Hypophysectomized Rats 225

JACKSON, G. L., K. R. STEVENS, AND A. V. NALBANDOV: Activity of Crude Extracts of Rat Hypothalamus in Hypophysectomized Assay Rats 234

WAHNER, H. W., E. V. FLOCK, C. A. OWEN, JR., AND K. A. HUIZENGA: Metabolism of Butyl 4-Hydroxy-3,5-diiodobenzoate (BHDB), a Thyroxine Analogue 239

VORHERR, H., M. W. B. BRADBURY, M. HOGHOUGHI, AND C. R. KLEEMAN: Antidiuretic Hormone in Cerebrospinal Fluid During Endogenous and Exogenous Changes in Its Blood Level 246

SACHS, H., AND E. W. HALLER: Further Studies on the Capacity of the Neurohypophysis to Release Vasopressin 251

CLAYTON, J. A., AND D. T. MASUOKA: TSH-Induced Mobilization of Serotonin from Perivascular Mast Cells in the Rat Thyroid 263
ROBERTS, J. S., AND L. SHARE: Oxytocin in Plasma of Pregnant, Lactating and Cycling Ewes During Vaginal Stimulation 272
INOUE, K., AND A. TAUROG: Acute and Chronic Effects of Iodide on Thyroid Radioiodine Metabolism in Iodine-Deficient Rats 279
SPIES, H. G., J. HILLIARD, AND C. H. SAWYER: Pituitary and Uterine Factors Controlling Regression of Corpora Lutea in Intact and Hypophysectomized Rabbits 291
GOODMAN, H. M.: Multiple Effects of Growth Hormone on Lipolysis 300
BASTOMSKY, C. H., AND J. M. MCKENZIE: Interaction of Thyrotropin or the Long-Acting Thyroid Stimulator with Theophylline 309
RENNIE, P.: Follicular Activity in the Maintenance of Homotransplanted Rabbit Corpora Lutea 314
RENNIE, P.: Luteal-Hypophyseal Interrelationship in the Rabbit 323
BRATT, H., M. PUPKIN, C. W. LLOYD, J. WEISZ, AND K. BALOGH, JR.: Dehydrogenases in the Rat Ovary. II. A Histochemical Study of Steroid and Carbohydrate Metabolizing Enzymes in Micropolycystic Ovaries Induced by Continuous Illumination .. 329
GREEN, W. L.: Inhibition of Thyroidal Iodotyrosine Deiodination by Tyrosine Analogues 336
STERN, M. D., M. L. GIVNER, AND S. SOLOMON: Aromatization of 15β-Hydroxyandrostenedione by Human Placental Tissue . 348
SPIES, H. G., J. HILLIARD, AMD C. H. SAWYER: Maintenance of Corpora Lutea and Pregnancy in Hypophysectomized Rabbits 354

NOTES AND COMMENTS

CASH, W. D., AND M. GARDY: Failure of Posterior Pituitary Hormone Samples of Low Metal Content To Produce Mitochondrial Swelling 368
